

CRISCO
For Frying—For Shortening
For Cake Making

is the rich, solid
cream of the oil

Crisco is an entirely different cooking fat. You never have used anything like Crisco for frying, for shortening or for cake making because the Crisco Process of treating vegetable oil is new. And only this process can make the Crisco, or cream, from the oil.

Cream represents the richest, or best, of the milk. Crisco represents the richest, yet most digestible form of food oil.

Crisco is different also in this respect: It remains sweet and pure indefinitely. For the parts of the oil which turn rancid are eliminated by the Crisco Process.

Do not confuse Crisco, therefore, with other cooking fats. Crisco possesses advantages which none other has.

None is of the high quality of Crisco; no more than milk is of the quality of cream.

Try Crisco yourself, for frying, for hot biscuits and for cake. You will be delighted with it. You will see in an instant why it is so different. And you then will insist that your cook use Crisco.

WATERBURY.

Mr. and Mrs. Harry LeRoy Bingham have returned to Casse Grande, after a few days' spent in Burlington and at the Griffith home here.

The funeral of Arthur Demeritt was held from the Congregational church on Sunday afternoon. Rev. W. L. Boicourt officiated. The bearers were members of the Masonic lodge, O. E. Scott, Dr. E. A. Stanley, M. H. Moody and Judge

J. G. H. Dale. Burial was in the village cemetery under the auspices of Winooski lodge, No. 49, F. and A. M. Mr. and Mrs. Wheelock Towne of Burlington attended the service. E. H. Harris of St. Albans was a recent guest of his daughter, Miss Frances Harris, at R. N. Demeritt's. District Deputy A. V. Hollis of Morrisville made an official visit to Dillingham grange Saturday evening. Dr. F. E. Steele, Jr., seemed slightly more comfortable yesterday.

Ah, fine!
Oats that are easy to digest

New process—all waste removed—perfectly sterilized—cooked in half the time—new flavor—more digestible and wholesome. Sounds good to me! I'll certainly have to ask friend wife to try.

PURITY OATS

"The Bountiful Breakfast"—totally different
PURITY Oats agree with everybody. The PURITY Process gets rid of all dust, hulls, shorts and other waste. The PURITY Process perfectly sterilizes each flake. The PURITY Process slightly parches and toasts the flakes, producing a wonderful flavor, and making each flake so soluble that it will dissolve dry and uncooked in the mouth. PURITY Oats are readily digested.

Order PURITY OATS today

You buy them fresh, in the round PURITY Package, original with us. If you don't find them the best oats you ever purchased—in every way—your grocer is instructed to return your money.

Regular Size Package 10 cents—Family Size Package, containing four pounds, is the largest package of real good oats ever sold for 25 cents.

THE BARRE ELECTRIC CO

IN LOCAL MARKETS

Butter Advanced Slightly in
Price, Dairy 32@33c,
Creamery 34@35c

DRESSED PORK
REMAINS UNCHANGED

Fresh Eggs Scarce at 40c a
Dozen—Potatoes Quiet
at 45c a Bushel

Barre, Vt., Nov. 11, 1914.
Dressed pork is unchanged. Butter makes a slight advance.
Wholesale quotations:
Dressed pork—11@11½c.
Veal—11@12c.
Lamb—13@14c.
Fowls—16@18c.
Chickens—18@20c.
Fresh eggs—Scarce at 40c.
Butter, creamery—34@35c.
Butter, dairy—32@33c.
Potatoes—Quiet at 45c.

RICKER'S MARKET REPORTS.
No Sale on Milk, Owing to Quarantine—Markets Unsettled.
St. Johnsbury, Nov. 11.—W. A. Ricker's market reports there is no sale on milk owing to the quarantine, and that the markets are unsettled.
Receipts for the week ending Nov. 10 included:
Poultry—2,000 lbs., 8@10c.
Lamb—465, 3@6c.
Hogs—185, 6@7c.
Cattle—317, 2½@7c.
Calves—350, 3@7½c.

IN BOSTON MARKETS.
Egg Market Strong and Small Supply—Butter Rather Firm.

Boston, Nov. 11.—There is little change in the local butter, cheese and egg markets from the conditions of late last week. Fine butter is pretty firmly held, chiefly because of the strength of outside markets on that grade, for the local demand is neither large nor urgent and supplies, while seasonably small, are ample for wants. The market continues in buyers' favor on the undergrades. The cheese market is dull and merely steady, as supplies are quite sufficient for needs. The egg market maintains a strong tone in the lack of large supplies.

Jobbing quotations:
Butter—Fancy northern creamery, tubs 34½@35c, boxes 35½@36c, prints 36@36½c, fancy western creamery 34@34½c, good to choice creamery 30@31c, fair to good 29@30c.
Cheese—New York twins, fancy 16½@17c, fair to good 15½@16c, Young America 16½@17c.
Eggs—Fancy henney 56@58c, choice eastern 56@58c, fresh western extras 46@48c, prime firsts 36@38c, firsts 33@35c, storage 26@28c.

LIVESTOCK TRADING SLOW.

Difficult Conditions at the Brighton Market.
Brighton, Mass., Nov. 11.—Livestock trading was carried on under difficulties at the Brighton market yesterday. The stockyards were closed on account of quarantine conditions, and arrivals were unloaded directly at the abattoir. Facilities were lacking, and the work was slow and difficult. Values were generally higher than a week ago for good beef stock.

Arrivals at the abattoir for the day were 12 cars livestock from the Boston & Maine railroad, and seven cars from the Boston & Albany. On Sunday 18 cars came in from Boston & Maine points in Vermont, via Springfield. Heavy cattle sold better, one good yearling selling at 8c, with fancy held as high as 9½c. Good cattle brought 7½@8½c and light cattle 6@7c.
Beef cows sold as high as 7½c for fancy, but this was an extreme. Tops generally sold at 6½@7c, with good cows at 5½@6c, ordinary cows at 4@5c, and canners at 3½@4c, the outer range being paid for most offerings. Koshers buyers were particularly active and bid up prices.

Good lots of calves sold on about the same level as a week ago, fancy bringing 10½@11c in a small way, with good lots at 9@10c, mixed lots 7@8c, and grassers 6@7c. Small calves brought 22 and upward.
Bulls were rather firmer, with light offerings. Fancy stock was quotable at 6½@7c, but few were up to this mark. Good bulls were quoted at 5½@6c, ordinary bulls at 4@5c, and hogs at 4@5c.

Hogs advanced sharply, owing to the cutting off of the western supply. Sales of choice lots were made at 9@9½c or about 1½c higher than a week ago. Rough lots sold at 8½@9½c and hogs at 4@5c.
Sheep and lambs were in small supply, and prices were firmer, at 6@6½c for lambs and 5@5½c for sheep.
Sales of milk cows were absolutely prohibited, and the cow barns at the stockyards were without a tenant. It has been a long time since such conditions prevailed. Brokers and drivers confining their attention to milk cows found their occupation gone.

COTTON EXCHANGE TO REOPEN.
Last Obstacle Is Removed by Incorporation of Syndicate.

New York, Nov. 11.—The last obstacle to the reopening of the Cotton exchange was removed yesterday by the incorporation of the syndicate which will take over the exchange contracts at once. The syndicate was organized at a meeting held at the exchange yesterday, and it was generally believed that the exchange would reopen at the beginning of next week.

PREDICTS TAFT WILL RUN AGAINST WILSON

J. "Ham" Lewis Says the Issue Will Be Mexican and Japanese Problems—Sees Danger in Race Problems.

Washington, Nov. 11.—Former President Taft will be the Republican nominee in 1916 against President Wilson, Senator J. Hamilton Lewis of Illinois asserted yesterday. The campaign, he said, will be waged on the question of the foreign relations of the United States, as they affect Mexico and Japan. Senator Lewis declared he expects the Panama canal to be the greatest international concern to the United States. Grave questions may arise, he said, during this war, if this country should be called upon to decide whether the belligerents may use it.

That Japan is making every effort now to win over China, was the opinion of Lewis. With China on her side, he said, Japan will some time in the future ask the United States to permit the immigration of Asiatics on the same terms that she permits other foreigners. In the opinion of Senator Lewis, Japan will force England, France and Russia to back her in her demands upon the United States.
If there should be a world war, he said, in future times, and should the United States be involved, the Panama canal would be the first object of attack. He said \$100 worth of dynamite would be sufficient to blow up the canal.

BENEFIT OF GOOD ROADS.
To Non-Abutting Property Owners Is Considerable.

Washington, D. C., Nov. 11.—The road building specialists of the department of agriculture, in bulletin No. 136, entitled "Highway Bonds," have the following to say about the benefit of a well-constructed highway to property owners whose property is not directly on the road to be improved:

In planning the highway system or the main market roads, it will be found necessary to omit many roads the improvement of which is greatly desired by abutting landowners. The fact that such property holders must pay a tax for the bond issue is only an apparent injustice, for if the highway system is well planned the entire county will feel the benefits of the improvement. As a rule, main market roads reach the majority of producing areas, and when are improved all land values tend to increase.

The fact that cities and larger towns are frequently taxed for bond issues to build highways outside of their own limits is sometimes made a point of debate in bond elections. It is argued that because a large part of the county wealth is within the corporate limit of such cities and towns, highway bond money should also be used to construct their streets. It is even urged that the expenditure should be made proportionate to the assessed valuation within the city limits. If the proceeds of highway bond issues were distributed in this way, their purpose in many cases would be defeated. The primary object of the county highway bond issue is to build county market roads and not to improve city streets, although a high percentage of the assessed valuation may be city property. It is now known that the expenditure should be made proportionate to a sound principle and that it is one of the best features of state aid for highways. In Massachusetts the city of Boston pays possibly 40 per cent of the total state highway fund, but not a mile of state-aid highway has been built within its limits. New York City also pays about 40 per cent of the cost of the state highway bonds. Some state laws prohibit the expenditure of proceeds of state highway bonds within corporate limits of cities or towns.

The improvement of market roads results in improved marketing conditions which benefit the city. Most cities are essentially dependent upon the surrounding country for their prosperity and development. The development of suburban property for residence purposes is also dependent upon highway conditions and it is becoming evident yearly that whatever makes for an increase in rural population must be encouraged. Since the introduction of motor traffic, country highways are used to an increasing extent by city residents. In fact, the cost of maintaining many country highways has been greatly increased by the presence of city-owned motor vehicles. The general advance in facilities for doing country business from town headquarters when roads are improved is no inconsiderable factor in the commercial life of the community.

Resinol
the skin treatment
that acts instantly

YOU don't have to wonder if Resinol is doing you good, you know, because the first application stops the itching and your tortured skin feels cool and comfortable at last. Won't you try the easy Resinol way to heal eczema or other skin-eruption?

Resinol is a nearly flesh-colored that can be used on exposed surfaces without attracting undue attention.

Resinol is sold by all druggists. For sample and trial take of Resinol 5¢ box, write to Resinol Dept. Co., Baltimore, Md.

CANAL CARGOES EQUAL TO CAPE HORN BUSINESS

For the Same Period This Year and Last
Shipments Are About Same
the Two Ways.

San Francisco, Nov. 10.—Cargoes of grain, especially going forward by way of the Panama canal to New York and Europe from the Northwest in the last three months, virtually equalled in volume cargoes going by way of Cape Horn for a like period last year, according to statistics published here yesterday. Shipping from San Francisco via the canal jumped from \$1,376,000 in August to \$4,248,000 in September, and rose another million in October. New York got most of the cargoes, including wheat, barley, onions and prunes.

WAITSFIELD.

Miss Frances Bucklin has been housed with an acute attack of liver and stomach trouble but is more comfortable now.

Miss Jennie Comstock was absent from school last week, suffering with an attack of threatened appendicitis.

Mr. and Mrs. F. C. Wetmore of Barre spent the week end in town.

At the boy scout meeting, the following were elected patrol leaders: William Mills, Richard Gaylord, Harry McAllister; secretary, Everett Wallis; treasurer, Carey Palmer.

Mr. and Mrs. F. D. Sartelle of Barre spent Sunday at A. W. Bigelow's.

Miss Vone Skinner was unable to teach her school several days last week.

Mrs. Wesley Tucker is confined to her bed with sickness. Little Everett Palmer is also on the sick list with acute indigestion.

The following telephones have been installed: Mrs. Flora Moriarty, 4-21; Robert Farnoe, 16-1; Clarence Birch, 16-23.

Mr. and Mrs. Lynn Jones have returned from the West and intend buying a farm in Vermont.

Kermit Moriarty fell Saturday on a sharp stone, badly cutting his left knee, so that he is unable to use that leg.

TOBACCO FIRE LOSS \$600,000.
Several Warehouses Destroyed at Farmville, N. C.

Farmville, N. C., Nov. 11.—Fire that destroyed several tobacco warehouses of the American Tobacco company here last night caused damage estimated at from \$300,000 to \$750,000. A number of other buildings were burned.

PRZEMYSL PREPARES FOR SIEGE.

All Inhabitants Lacking Store of Provisions Ordered Out.

Copenhagen, Nov. 11.—The Berlingske Tidende's correspondent with the Austrian army says that Przemyśl is preparing for a siege and that all inhabitants who have not provisions, for three months have been ordered to leave the city.

A-K Tablets For Various Forms Of Headache

"It is necessary in order to treat headaches properly to understand the causes which produce the affection," says Dr. J. W. Ray of Brockton, Ala. Continuing, he says: "Physicians cannot even begin the treatment of a disease without knowing what causes give rise to it, and we must remember that headache is to be treated according to the same rule. We must not only be particular to give a remedy intended to counteract the cause which produces the headache, but we must also give a remedy to relieve the pain until the cause of the trouble has been removed. To answer this purpose Anti-kamnia Tablets will be found a most convenient and satisfactory remedy. One tablet every one to three hours gives comfort and rest in the most severe cases of headache, neuralgia and particularly of headache of women."

When we have a patient subject to regular attacks of sick headache, we should caution him to keep his bowels regular, for which nothing is better than "Actoids," and when he feels the least sign of an oncoming attack, he should take two A-K Tablets. Such patients should always be instructed to carry a few Anti-kamnia Tablets, so as to have them ready for instant use. These tablets are prompt in action, and can be depended on to produce relief in a very few minutes. Ask for A-K Tablets. Anti-kamnia Tablets can be obtained at all druggists.

Biscuits Light and Appetizing

STICKNEY & POOR'S CREAM OF TARTAR

15c per quarter
pound

and you can confidently rely on the satisfactory outcome of your baking. Wherever any attempt is made to do cooking on a scientific basis, Stickney & Poor's Cream of Tartar occupies a prominent place. Most all grocers have it.

of delicate texture and inviting appearance are always secured when they are raised with Stickney & Poor's Cream of Tartar mixed with soda.
